COMPUTER ENGINEER

I am a Computer Engineer, with a passion for Programming. I am specializing in Web Development using React.js, Tailwind CSS/Bootstrap for Frontend Development, and SQL, MongoDB, Laravel Lumen, Node.js, Express.js for Backend Development.

PROFESSIONAL EXPERIENCE

NexBridge Technologies Inc.   **Jun 2024 - Aug 2024**
Backend Developer (Internship)
- Developed a REST API using Laravel Lumen and SQL for the company's in-house business dashboard.
- The newly developed API followed a consistent standard that made it easier to maintain and scale than their previous API.

TECHNICAL SKILLS

- UI/UX Design using Figma
- API Testing using Postman
- API Development using Laravel Lumen or Node.js and Express.js
- NoSQL database using MongoDB and Firebase
- SQL database using SQLYog and Workbench
- Frontend Development using React.js, Bootstrap, and Tailwind CSS
- Backend Development using Javascript frameworks (Node and Express), Laravel Lumen, and Flask
- Object Oriented Programming
- Object-Relational Mapping
